

# Abandon

Lee Black, Kenna West, Tony Wood

## Verse 1

Too many people in this world play it safe  
Never letting go of their heart  
But I've got ask, is it really living  
If you never take a chance and drop your guard  
Call it crazy, or call it faith

## Chorus

I'm gonna to dive into a day and find the treasure that it holds  
Gonna raise up a sail and find the wind and let it blow  
I'm gonna dance while the rest of the world is simply standing  
I'm gonna live, I'm gonna laugh, I'm gonna love with abandon

## Verse 2

Life's too short to only dream when you are sleeping  
So I'll go out on a limb  
Step out of the boat, onto the water  
Never caring if I sink or swim  
Call it crazy, or call it faith

## Repeat chorus

## Bridge

Are there times when I'm afraid to fly? You bet  
But I wanna take my last breath with no regret

## Repeat chorus

And dive into a day and find the treasure that it holds  
Gonna raise up a sail and find the wind and let it blow  
Gonna reach out to the world open handed  
I'm gonna live, I'm gonna laugh, I'm gonna love with abandon
