

# At The Cross

Matt Armstrong, Benji Cowart, Jenna Cowart, William Reed Newell

## Verse 1

You have made a place where love and wrath run wild  
The penalty and grace are finally reconciled  
You have made a way, the broken can be whole again

## Chorus

At the cross your glory bore my shame  
At the cross You suffered in my place  
You gave everything for us at the cross

## Verse 2

Dark and sacred hill where violence purchased peace  
The innocent was bound to set the captives free  
There you made a way, the lost are welcomed home again

## Repeat chorus

At the cross the prince of heaven died at the cross  
At the cross death became a lie  
You gave everything for us, You gave everything for us

## Bridge

Mercy there was great and grace was free  
Pardon there was multiplied to me  
There my burdened soul found liberty  
At the cross

(At the cross) Your glory bore my shame  
(At the cross) You suffered in my place  
You gave everything for us  
You gave everything for us  
At the cross
