

## DIVINE LOVE

Words & Music by Buddy Greene

He was a mean man  
He worked the hard land and it made him tough  
And with his woman sometimes he got a little rough  
He was a mean man  
And then he found love  
He found divine love and it was enough  
To soften up this man who was naturally rough  
It took divine love

Chorus

Divine love open up our eyes  
Divine love exposes our lives  
Divine love cleans us up inside  
Divine love

She was a pretty girl  
She had the whole world at her fingertips  
Knew she could get her way cause she was fully equipped  
She was a pretty girl  
But then she found love  
The kind of love that showed the ugly truth  
Of how she selfishly used all of her attributes  
It was divine love

Repeat chorus

He loved the whole world  
Every mean ol' man and every pretty girl  
Every pauper, thief and beggar, every duke and earl  
He loved the whole world  
And so he gave love  
He gave divine love on a wooden cross  
For every woman, man and child He paid the cost  
And it took divine love

Repeat chorus
