From the outskirts of Boston, to the heart of L.A.  
From a small town in Kentucky, to the streets of Santa Fe  
All across the nation where people kneel and pray  
And two or three are gathered, I've got family there

I've got family there, we're a very close relation  
I've got family there, children of a new creation  
I can find a brother or a sister anywhere  
'Cause where the spirit of the Lord is  
I've got family there

On the nightly news we see them survive another day  
In foreign lands they hunger for the bread we throw away  
We must find a way to show them just how much we really care  
Let us not forget them, 'cause we've got family there

We've got family there, we're a very close relation  
We've got family there, children of a new creation  
We can find a brother or a sister anywhere  
'Cause where the spirit of the Lord is  
We've got family there

'Cause where the spirit of the Lord is  
We've got family there
