

MIGHTY RIVER OF LOVE

Words & music by Geoff Thurman & Jamie Page

A mother of three faces life alone
Her heart torn in pieces since her love left home
It wasn't her fault but she still feels the pain
And she needs to be held through the tears and shame
With more than mere words we must reach her
With the heart of our God we must go

(Chorus)

Let the mighty river of love flow
Let the mighty river of love flow
See compassion flood over the desert sand
Restoring life to a barren land
Let the mighty river of love flow

An old grey-haired man in a rocking chair
See him wastin' away thinkin' nobody cares
Once he was gentle but now he's grown cold
In the modern man's world there's no room for the old
With more than mere words we must reach him
With the heart of our God we must go

(Repeat chorus)

Shall we gather at the river
The beautiful, beautiful river
Gather with the saints at the river

(Repeat chorus)
