

Out of Here

Kenna Turner West / Jason Cox

Verse 1

I know this world below is full of grief and pain
It's just temporary, sure to pass away
So I'm watching and waiting with Heaven on my mind
Holding to the promise when He splits the eastern sky

Chorus

I'll be moving up when the trumpet sounds
When that morning comes gonna be glory bound
And on that glorious day when Jesus appears
Don't look for me, no, I'll be out of here

Verse 2

Well it's a fact, He's coming back in the twinkling of an eye
Get your house in order, don't be left behind
Oh I'm packed up and ready when it comes time to leave
Gravity is gonna lose it's hold on me

Repeat chorus

Bridge

When the clouds roll back and all the saint all rise
That's the moment when I'll bid this world goodbye, bye, bye

Repeat chorus twice
