

# She's Better Now

Joel Lindsey, Allison Speer

I saw an old family friend, we talked of years gone by  
Then he asked about my grandma, said he hoped she's doing fine.  
I just smiled and said she's better now

Chorus

She's ridin' on angel's wings  
And laughing at the smallest things  
She's learning how to wear a crown  
She's better now

I found an old photograph  
Long before her painful days  
Where she's strong and she's laughing, I'll remember her that way  
I miss her but I know she's better now

Repeat chorus

Bridge

She's at home and settled in where tears can never go  
It's such a comfort to know

Repeat chorus

She's learning how to wear a crown  
She's better now
