

WALK INTO FREEDOM

Words & music by Geoff Thurman & Ty Lacy

I know you're tired, I can see it in your eyes
I know you're weary from every desperate try
Oh you've been waiting forever for love to come along
You've been found guilty of sleeping with the past
Dealing with debts already thrown in the trash
He's paid them for you and all He wants you to do

(Chorus)

Walk into freedom and live in true freedom
It's an open door from his heart to yours just waiting for you to
Walk into freedom and live in true freedom
Don't drown in the shame of yesterday's pain, Freedom

Day after day and night after night
You hang in the balance between wrong and right
Oh what will it take for the choice you must make for you to decide
